

How does the medical form work?

- The British Parachute Association (BPA) insist that all participants bring their medical form with them on the day. Whether you need to get the form signed by a doctor depends on the following information.

The first BPA form is **Form 115A**. If you have any of the medical conditions listed on the form, then you must get **Form 115B** signed by a doctor. If you do not have any of the medical conditions listed on the form, then you may self-sign **Form 115A** and bring that along on the day.

Please print your form double-sided and bring it with you on the day – if you are not able to do this please email us at info@skylineevents.co.uk and we can post a form out to you.

- If you book on for a solo accelerated free fall you will need to self-sign the BPA medical **Form 115C**. If you are 40 years or older, or have any of the medical issues listed on **Form 115C**, and doing a solo jump, you will need to get solo medical **Form 115D** signed by your doctor.

MEDICAL FORMS TO DOWNLOAD:

Form [115A](#) – to self-sign for a tandem skydive

Form [115B](#) – for your doctor to sign for a tandem skydive

Form [115C](#) – to self-sign for a solo accelerated freefall

Form [115D](#) – for your doctor to sign for a solo accelerated freefall

N.B. These forms will also be sent to you once we have received your booking
